ORGANIZERS AND SPONSORS.....	iii
INTERNATIONAL ADVISORY AND ORGANIZING COMMITTEE.....	iv
PROGRAM COMMITTEE.....	v
CONFERENCE MESSAGES.....	ix
85 th ANNIVERSARY OF PROFESSOR T. NEJAT VEZIROGLU.....	xxi
75 th BIRTHDAY OF PROFESSOR V.V. SKOROKHOD.....	xxv
70 th BIRTHDAY OF PROFESSOR D. K. ROSS.....	xxix
150 th ANNIVERSARY OF THE BIRTHDAY SVANTE ARRHENIUS.....	xxxvii
PIERRE VICTOR AUGER.....	xxxviii
IN MEMORY OF Yu.F. SHMALKO.....	xxxix
IN MEMORY OF N.S. ASTRATOV.....	xli
IN MEMORY OF Yu.A. OSSIPYAN.....	xlii
150 th ANNIVERSARY OF THE BIRTHDAY OF M. PLANK.....	xliv
115 th ANNIVERSARY OF THE BIRTHDAY OF P. KAPITSA.....	xlvi
100 th ANNIVERSARY OF THE BIRTHDAY OF L.D. LANDAU.....	xlviii
TOPIC 1 METAL HYDRIDES	1
TOPIC 1.1 PREPARATION AND PRODUCTION OF METAL HYDRIDES	
Mechano-chemical method of alkaline earth metal aluminum hydride and lanthanides borohydrides obtaining.... <i>Mirsaidov U.</i>	2
Effect of different carbon allotropies on magnesium hydrogen sorption kinetics under reactive ball milling..... <i>Rud A.D., Lakhnik A.M., Uvarov V.N., Melnichuk E.E.</i>	4
The formation of quasicrystals in Ti-Zr-Ni system and of their hydrides in SHS regime..... <i>Shekhtman V.Sh., Hakobyan H.G., Aleksanyan A.G., Dolukhanyan S.K., Ter-Galstyan O.P., Sakharov M.K.</i>	8
Formation of transition metal hydrides at high pressures..... <i>Degtyareva O., Guillaume C.L., Proctor J.E., Gregoryanz E.</i>	12
Bulk- and surface-modified hydrogen storage materials on the basis of TiFe..... <i>Davids W., Lototsky M., Williams M.</i>	14
Photoelectrochemical cell for hydrogen accumulation: the cathodes characteristics..... <i>Shcherbakova L.G., Kolbasov G.Ya., Solonin Yu.M., Slobodyanyuk I.A., Rusetskii I.A.</i>	16
Formation of alloys in Ti-V system in hydride cycle and synthesis of their hydrides in self-propagating high-temperature synthesis regime..... <i>Aleksanyan A.G., Dolukhanyan S.K., Shekhtman V.Sh., Mnatsakanyan N.L., Mardanyan S.S.</i>	20
Investigation of interaction of hydrogen with IVB group metal alloys in the combustion regime..... <i>Mayilyan D.G., Dolukhanyan S.K.</i>	24
The combustion processes in system Ti-V-Cr-C-H and synthesis of complex carbohydrides..... <i>Aghajanyan N.N., Dolukhanyan S.K., Ter-Galstyan O.P.</i>	28
Formation of hydrides adopted in the catalyst for water decomposition..... <i>Kerimova U.N., Aliyev N.A., Zeynalova S.H., Huseynova M.K., Kasimov A.A.</i>	32
TOPIC 1.2 PHYSICAL AND CHEMICAL PROPERTIES OF METAL HYDRIDES	37
On the chemical storage of heat energy..... <i>Padurets L.N., Kuznetsov N.T., Shilov A.L.</i>	38

Structure and hydrogenation properties of novel Mg-based intermetallic compounds and alloys.....	40
<i>Denys R.V., Berezovets V.V., Koval'chuk I.V., Paul-Boncour V., Cerny R., Zavaliiy I.Yu.</i>	
The use of neutron scattering techniques for investigation of hydrogen storage systems.....	44
<i>Ross D.K., Bull D.J., Moser D., Roach D.L., Mileeva Zh.A. and Shabalin I.L.</i>	
Analysis of the interrelation of the thermal stability of hydrides of the intermetallic compounds of composition AB ₂ with the nature of their chemical bonds character Me-H.....	46
<i>Dobrovolsky V.D., Ershova O.G., Solonin Yu.M., Zavaliiy I.Yu.</i>	
Hydrogen distribution in the Mo _{0.5} Ti _{0.5} H _x alloy as probed by NMR.....	50
<i>Tarasov V.P., Privalov V.I., Kirakosyan G.A., Padurets L.N., and Shilov A.L.</i>	
Correlation between elastic- and thermodynamic properties and electronic parameters of rare-earth metal hydrides.....	54
<i>Goryachev Yu. M., Dekhtyaruk V.I., Malakhov V.Ya., Siman M.I., Fiyalka L.I.</i>	
Deuterium retention in magnesium, Mg ₇₂ Mm ₈ Ni ₂₀ alloy and in two-layer Mg ₇₂ Mm ₈ Ni ₂₀ -Pd system.....	58
<i>Neklyudov I.M., Morozov O.M., Kulish V.G., Bovda A.M., Zhurba V.I., Onishchenko L.V.</i>	
Hydrogen mobility in nanostructured C15-type compound ZrTi ₂ H _{3.9}	62
<i>Solonin A.V., Skripov A.V., Medvedev E. Yu., Aleksashin B.A., Babanova O.A., Uimin M.A., Gaviko V.S.</i>	
Thermodynamic properties and phase diagrams of ternary Me-B-C systems.....	66
<i>Kudin V.G., Makara V.A., Sudavtsova V.S., Shevchenko M.A.</i>	
High-pressure phases in the magnesium – transition metal – hydrogen systems.....	68
<i>Bashkin I.O., Zavaritskaya V.A., Kulakov V.I., Noréus D., Sakharov M.K., Fedotov V.K.</i>	
The general regularities of formation in hydride cycle of alloys in Ti-Zr-H; Ti-Hf-H; Zr-Hf-H; Ti-Zr-Hf triple systems.....	72
<i>Dolukhanyan S.K., Aleksanyan A.G., Shekhtman V.Sh., Mayilyan D.G., Mnatsakanyan N.L., Ter-Galstyan O.P.</i>	
Structure-phase mechanism of α ₂ - Ti ₃ Al destructive hydrogenation.....	76
<i>Bratanich T.I., Skorokhod V.V., Kopylova L.I., Kotko A.V., Krapivka N.A.</i>	
Hydrogen diagnostics of structural changes in steel 18Cr10NiTi subjected to low-temperature extrusion.....	80
<i>Neklyudov I.M., Morozov O.M., Kulish V.G., Khaimovich P.A., Zhurba V.I., Sokolenko V.I.</i>	
Influence of Ni and La additions upon peculiarities of hydrogenation and hydrogen capacity of composites based on Zr-containing alloys.....	84
<i>Solonin Yu.M., Lavrenko V.A., Khyzhun O.Yu., Galiiy O.Z.</i>	
To a question about the temperature of decomposition of the hydride phase of MgH ₂ , obtained by the different methods.....	88
<i>Ershova O.G., Dobrovolsky V.D., Solonin Yu.M.</i>	
Calorimetric investigation of the hydrogen interaction with Ti _{0.9} Zr _{0.1} Mn _{1.2} V _{0.1}	92
<i>Anikina E.Yu., Verbetsky V.N.</i>	
DFT study of the structure, stability and elementary reactions of simple and complex hydrides of light elements.....	94
<i>Charkin O.P.</i>	
Neutron spectroscopy and thermodynamical properties of γ alane.....	96
<i>Antonov V.E., Graetz J., Jensen C.M., Kolesnikov A.I., Langley W.</i>	
The band-covalent model of (4f) metal-hydrogen system. Bonding forces. H absorption.....	100
<i>Mitsek A.I.</i>	
The band spectrum role in H absorption in 4f-metals.....	104
<i>Mitsek A.I.</i>	
Magnetic properties and H absorption in the local-covalent model of 4f-metals.....	108
<i>Mitsek A.I.</i>	
Magnesium surface modification by a complex metallic coverage.....	112
<i>Khomko T.V., Chuprov C.C., Adeev V.M., Kopylova L.I.</i>	
Peculiarities of hydrogen interaction with nanocrystalline magnesium.....	116
<i>Gerasimov K., Chizhik S., Konstanchuk I.</i>	

Investigation of $Ti_{1.5}Al-NH_3$ and Ti_2Al-NH_3 systems.....	120
<i>Fokin V.N., Dulya M.S., Fokina E.E., Borisov D.N., Korobov I.I., Tarasov B.P.</i>	
Peculiarities of AlH_3 decomposition.....	124
<i>Dulya M.S., Lukashev R.V., Klyamkin S.N., Bulychev B.M., Tarasov B.P.</i>	
Formation of Ti-Cr b.c.c. continuous series alloys by mechanical milling of Ti and Cr powders.....	128
<i>Savyak M.P., Andreeva M.G., Khomko T. V., Macera V.Yu., Udovik O.A., Budylna O. N., Uvarova I.V.</i>	
Interaction in $CeCo_{2.95}M_{0.05}-H_2$ (M-Cu, Si) system under hydrogen pressure up to 100 atm.....	130
<i>Lushnikov S.A., Bobrov N.A., Novikov D.Yu., Verbetsky V.N.</i>	
Dynamical stability of palladium hydride: <i>ab initio</i> study.....	134
<i>Isaeva L.E., Bazhanov D.I., Isaev E.I., Eremeev S.V., Kulkova S.E., Abrikosov I.A.</i>	
Features of phase transformations in the foils of alloy Pd-8,3at.%Y-H during relaxation.....	138
<i>Stepenko S.O., Avdyukhina V.M., Revkevich G.P., Nazmutdinov A.Z., Umanskaya N.A.</i>	
Modelling relatively stable hydrides of alkali-earth metals.....	142
<i>Boyarkina O.V., Karavaev D. V.</i>	
Improvement of the metrological characteristics at the analysis of intermetallic compounds.....	146
<i>Ivanov A.V.</i>	
Hydrogen generation by interaction of the aluminium activated by gallium alloys with water.....	150
<i>Nazarov R.S., Tarasov B.P.</i>	
Hydrogen- generating composition on magnesium base.....	154
<i>Kushch S.D., Kuyunko N.S., Nazarov R.S., Tarasov B.P.</i>	
Theoretical study of hydrogenation elementary reactions of doped aluminide clusters $Al_{12}X$, X = Al, B, C, Si, Ti.....	158
<i>Kochnev V.K., Charkin O.P., and Klimenko N.M.</i>	
Rate of hydrogen absorption by scandium at high temperature.....	160
<i>Mazzolai G.</i>	
Corrosion behavior of highly austenitic stainless steels and Ni-based alloys at elevated temperatures in concentrated phosphoric acid solutions.....	162
<i>Petrushina I.M., Nikiforov A.V., Bjerrum N.J.</i>	
Paramagnetic susceptibility of the IMC RNi (R=Sm, Tb, Gd, Dy) and their hydrides.....	164
<i>Yaropolov Yu.L., Verbetsky V.N., Nikitin S.A., Andreenko A.S.</i>	
Chemical bonding and electronic analysis of the Fe-H interaction.....	168
<i>Simonetti S., Rey Saravia D., Brizuela G., Juan A.</i>	
Characterization of Mg – x wt. % FeTi composites prepared by high energy ball milling.....	170
<i>Lal C., Dhunna R., Jain I.P.</i>	
To the probleme of the hydrogen atmosphere on a properties of the <i>d</i> -metal based coatings with <i>p</i> -elements....	172
<i>Us'kova N.A., Grichishina L.N., Baglyuk G.A., Trofimov V.A.</i>	
Influence of hydrogen on inelasticity-elasticity properties of Ti_3Al alloy and SiO_2	176
<i>Onanko A.P., Lyashenko O.V., Onanko Y.A.</i>	
Features of interaction of hydrogen with coverings on the basis of nickel.....	180
<i>Zvyagintseva A.V.</i>	
Hydrogen absorption properties of $ZrFe_x$ ($1.9 \leq x \leq 2.5$) alloys.....	184
<i>Sivov R.B., Zotov T.A., Verbetsky V.N.</i>	
Dynamics of hydrogen sorption by metal-hydride in plasma of glow discharge.....	188
<i>Sereda I.N., Klochko Ye.V., Ryabchikov D.L., Tseluyko A.F.</i>	
Hydrogen interaction with IMC RNi (R=Sm, Tb, Gd, Dy, Y).....	192
<i>Yaropolov Yu.L., Verbetsky V.N., Somenkov V.A.</i>	
New nanonickel catalyst for hydrogen storage in solid hydrides.....	196
<i>Wronski Z.S., Czujko T., Carpenter G.J., Varin R.A.</i>	
Isobar- volumetric studies of hydrogen sorption and thermodynamic characteristics of mechanically activated of $TiH_{1.9}$	198
<i>Dobrovolskiy V.D., Ershova O.G., Solonin Yu.M.</i>	

Electronic origin of superabundant vacancies in Pd hydride under high hydrogen pressures.....	202
<i>Degtyareva V.F.</i>	
The effects of nanonickel additive on the decomposition of complex metal hydrides.....	206
<i>Varin R.A., Czujko T., Jang M., Wronski Z.S.</i>	
The composites of magnesium hydride and iron-titanium intermetallic.....	208
<i>Varin R.A., Zaranski Z., Czujko T., Polanski M., Wronski Z.S.</i>	
Changes of hydrogen storage properties of MgH ₂ induced by boron ion irradiation.....	210
<i>Kumric S., Matovic Lj., Novakovic N., Siljegovic M., Jovanovic Z., Kacarevic-Popovic Z., Grbovic Novakovic J.</i>	
Raising thermal stability of titanium hydride.....	212
<i>Gor'kaeva O.L., Tarasova A.I., Sten'gach A.V., Postnikov A.Yu., Gor'kaev D.A., Mironova I.M., Loshkarev B.N.</i>	
Anisotropy of optical vibrations in PdD.....	216
<i>Kuzovnikov M.A., Antonov V.E., Davydov A.I., Fedotov V.K., Gnesin B.A., Ivanov A.S., Kolesnikov A.I.</i>	
Crystal structure and composition of hydrogen hydrate C1.....	220
<i>Efimchenko V.S., Kuzovnikov M.A., Sakharov M.K., Tkacz M.</i>	
A use of intermetallic compounds of MmNi _{5-x-y-z} Co _x Al _y Mn _z type in photoelectrochemical and electrochemical systems as hydrogen accumulators.....	224
<i>Shcherbakova L.G., Solonin Yu.M., Muratov V.B., Khomko T.V., Dobrovolskij V.D.</i>	
Hydrogen sorption properties of hexagonal Laves phase TiMn _{1.5} intermetallic compound.....	228
<i>Marinin V.S., Umerenkova K.R., Volovchuk O.V.</i>	
Study of hydrogen sorption properties, thermal stability and chemical bonds character of Ho and Lu Me-H hydrides by thermodesorption and X-ray absorption spectroscopy methods.....	232
<i>Dobrovolsky V.D., Ershova O.G., Solonin Yu.M., Morozova R.A.</i>	
Influence of mild aggressive environments on formation of hydrides in titanium powders.....	236
<i>Shapovalova O.M., Babenko E.P.</i>	
Hydrogen absorption performances and poisoning tolerance of AB ₅ -type hydrogen storage alloy surface-modified by electroless deposition of Cu and Pd.....	240
<i>Ren J., Williams M., Lototsky M.</i>	
Peculiarities of hydride formation in LaNi _{5-x} Cu _x -H ₂ (2≤x≤3) systems.....	242
<i>Berdonosova E.A., Sotnezova K.M.</i>	
Synthesis and crystal structure of over-stoichiometric deuteride LaNi ₅ D _{9.5}	246
<i>Sakharov M.K., Agafonov S.S., Antonov V.E., Fedotov V.K., Sagoyan L.I.</i>	
Phase transitions of Ti ₂ Cu in the destructive hydrogenation process.....	250
<i>Bratanich T.I., Kucheriavy O.V., Kopylova L.I., Skorokhod V.V., Krapivka N.A.</i>	
Hydrogen induced phase transitions in amorphous alloys.....	254
<i>Somenkov V.A., Agafonov S.S., Glaskov V.P., Syrykh G.F., Verbetsky V.N., Yaropolov Yu.L.</i>	
Influence of thermal stresses on thermal diffusion of hydrogen.....	260
<i>Vlasov N.M., Fedik I.I.</i>	
Hydrogen accumulating composites based on modified eutectic Mg alloys.....	264
<i>Fursikov P.V., Borisov D.N., Tarasov B.P.</i>	
Hydrogenation and properties of Pd-Mg-C and Pd-Al-C nanodispersion systems.....	268
<i>Churilov G.N., Osipova I.V., Novikov P.V., Grebennikova N.V., Chesnokov N.V.</i>	
About a role of alloying components on processes of diffusion of hydrogen in alloys depending on the nature of alloying additives.....	272
<i>Zvjagintseva A.V., Shalimov J.N.</i>	
Thermal stability and thermodynamic properties of tristetrahydrofuranates lanthanide borohydrides.....	276
<i>Gafurov B.A., Mirsaidov I.U., Khakerov I.Z., Badalov A.B.</i>	
Studying of thermodynamic and kinetic characteristics of the hydrogen desorption in magnesium hydrides.....	280
<i>Muratov V.B., Garbuz V.V., Khomko T.V., Gorbachuk N.P.</i>	

TOPIC 1.3 UTILIZATION OF METAL HYDRIDES	285
Influence of hydrogen and out-of-furnace treatment on mechanical properties of alloy of type of AK9..... <i>Chernega D.F., Kud P.D., Ivanchenko D.V.</i>	286
Receiving of compact samples of hafnium and ligature from waste in «hydride cycle»..... <i>Dolukhanyan S.K., Aleksanyan A.G., Kotsar M. L., Pogosyan A.A.</i>	290
Catalyzed LiBH ₄ and MgH ₂ for hydrogen storage..... <i>Sridechprasat P., Suttisawat Y., Rangsunvigit P., Kitiyanan B., Kulprathipanja S.</i>	294
Hydrogen storage on LiNH ₂ /LiAlH ₄ /MgH ₂ with TiO ₂ , Ti and CNTs..... <i>Siangsai A., Suttisawat Y., Sridechprasat P., Kitiyanan B., Rangsunvigit P., Kulprathipanja S.</i>	296
7–200 bar / 60 L/h continuously operated metal hydride hydrogen compressor..... <i>Lototsky M., Halldors H., Klochko Ye.V., Ren J., Linkov V.</i>	298
Roles of TiCl ₃ , TiO ₂ , Ti and Ti(OBu) ₄ on the Hydrogen Desorption and Reversibility of NaAlH ₄ <i>Rangsunvigit P., Suttisawat Y., Kitiyanan B., Kulprathipanja S.</i>	300
Experimental investigation of cyclic interaction of LaNi ₅ and ZrCrFe _{1.2} powders with hydrogen..... <i>Shanin Yu.I., Solovey A.I.</i>	302
The comparative analysis hydride heat pump with other heat pumps..... <i>Shanin Yu.I., Shanin O.I.</i>	306
The effect of mischmetal on behaviour of LaNi ₅ -type hydrides..... <i>Rtischeva N.V., Berdonosova E.A., Klyamkin S.N., Tarasov B.P.</i>	310
Synthesiz and properties of nanocrystalline MgO-Fe, received by reduction of iron-magnesium oxalate in hydrogen..... <i>Nadutov V.M, VoynashV.Z., Perekos A.E, Zalutskiy V.P., Efimova T.V., Svistunov E.A.</i>	314
Hydrogen accumulators and compressors for laboratory use..... <i>Bogolepov V.A., Savenko A.F., Zolotarenko A.D., Schur D.V., Zaginaichenko S.Yu., Shvachko N.A.</i>	316
Hydrogen torch for various purposes..... <i>Bogolepov V.A., Savenko A.F., Schur D.V., Zaginaichenko S.Yu., Tkachuk V.I., Skorokhod V.V.</i>	320
About mechanisms of hydrides formation in systems metal-boron..... <i>Zvyagintseva A.V. , Shalimov Yu.N.</i>	324
Metal hydride technology and applications..... <i>Jain I.P.</i>	326
TOPIC 2 CARBON NANOSTRUCTURAL MATERIALS	329
TOPIC 2.1 PREPARATION AND PRODUCTION OF FULLERENES AND OTHER CARBON NANOSTRUCTURES	
Production and investigation of fullerite C ₆₀ intercalated with small molecules..... <i>Shulga Y.M.</i>	330
The admixture engineering: what kind of atoms will have encage of fullerenes..... <i>Grishchishyna L.N., Grishchishyn D.A.</i>	334
New route of thermal transformation of hydrocarbons and novel structures and compounds of carbon..... <i>Kharlamov A.I., Kirillova N.V, Fomenko V.V., Gubareni N.I., Skripnichenko A.V.</i>	338
Self-assemblage and self-organizing of nonequilibrium carbon nanogels..... <i>Zhukovsky M.S., Beznosyuk S.A., Lerh Ya.V., Zhukovskaya T.M.</i>	342
Structural transformation of metallic catalyst nanoparticles of in different processes of carbon nanotubes formation..... <i>Korneeva Yu.V., Novakova A.A.</i>	346
Synthesis and reactivity of higher fullerenes..... <i>Kareev I.E., Bubnov V.P., Kotov A.I., Yagubskii E.B., Boltalina O.V., Strauss S.H.</i>	348
Plasma chemical synthesis of nanopowders of the metallocarbon systems..... <i>Tsvetkov Y.V., Samokhin A.V.</i>	352

Obtaining of nanoporous carbon by pyrolysis of aluminiumchlorhydrocarbon compounds.....	354
<i>Ibragimov H. D., Rustamov M. I., Seidov N. M., Kuliev A. D., Ibragimova Z. M., Kolchikova I. V.</i>	
Core-shell SiC based hybrid nanomaterials: synthesis and EPR investigations.....	358
<i>Savchenko D.V., Ogurtsov N.A., Makoswka-Janusik M., Kodjikian S., Pud A.A., Kassiba A.</i>	
Exo-hydrogenated small radius zigzag SWCNTs.....	362
<i>Baizae S.M., Khoshnevisan B.</i>	
The ways of stabilization of C ₇₄ biradical fullerene molecule.....	364
<i>Khamatgalimov A.R., Kovalenko V.I.</i>	
Influence of plasma parameters on formation rate of fullerenes, nanotubes and nanoparticles.....	368
<i>Osipova I.V., Churilov G.N., Novikov P.V.</i>	
Metal-carbon fibres with highly dispersive Fe, Co, Ni are the perspective material for synthesis of carbon nanostructures.....	372
<i>Safonova A.M., Smetanina O.V., Shpilevskaja L.E., Gonov A.N.</i>	
Obtain of spectrophotometric study of organic solutions of endo- and exometallofullerenes of C ₆₀	376
<i>Borts B.V., Tkachenko V.I., Moskvitin A.V., Kazarinov Yu.G.</i>	
Bis-azahomofullerenes: regioselective synthesis and mechanism of reactions.....	380
<i>Zverev V.V., Kovalenko V.I., Romanova I.P., Sinyashin O.G.</i>	
The adamantane and carborane analogs of fullerene nanoclusters.....	384
<i>Bej M.P., Dikusar E.A., Potkin V.I., Yuvchenko A.P., Zelenkovskii V.M.</i>	
Formation of higly-dispersed carbon in the process of hydrocracking of heavy petroleum fractions.....	388
<i>Rustamov M.I., Abad-zade Kh.I., Guliyev A.D., Mukhtarova G.S.</i>	
I. About processes of carbon nanostructures formation on cathode under electric arc discharge conditions	392
<i>Zolotarenko A.D., Zolotarenko Al.D., Zolotarenko An.D., Lysenko E.A., Golovchenko T.N., Vlasenko A.Yu., Schur D.V., Pomytkin A.P.</i>	
II. About the processes of carbon nanostructures formation in the gaseous phase and on the reactor walls under electric arc discharge condition.....	398
<i>Zolotarenko A.D., Zolotarenko An.D., Zolotarenko Al.D., Pomytkin A.P., Schur D.V., Zaginaichenko S.Yu., Skorokhod V.V.</i>	
III. On the processes of carbon nanostructures formation in liquid phase.....	402
<i>Zolotarenko An.D., Zolotarenko Al.D., Schur D.V., Zaginaichenko S.Yu., Dubovoy A.G.</i>	
Synthesis of carbon nanotubes on the surface of carbon fibers.....	406
<i>Bogolepov V.A., Schur D.V., Adeev V.M., Golovchenko T.N., Voronaya T.V., Kotko A.V., Lysenko E.A.</i>	
TOPIC 2.2 PHYSICAL AND CHEMICAL PROPERTIES	411
A DSC study of C ₆₀ fullerite oxidation by interstitial oxygen.....	412
<i>Shulga Yu.M., Martynenko V.M., Trukhanenok A.N., Leskova E.S., Vasilets V.N., Schur D.V., Gutsev G.L.</i>	
Raman spectroscopic study of shock-induced phase transformations of nanocrystalline anatase TiO ₂	416
<i>Shulga Y.M., Matyushenko D.V., Golyshev A.A., Shakhray D.V., Molodets A.M., Kurkin E.N., Domashnev I.A.</i>	
On the fine structure of NMR ¹³ C spectrum of fullerite C ₆₀ intercalated with molecular oxygen.....	420
<i>Shulga Y.M., Martynenko V.M., Anokhin E.M., Maximychev A.V., Michtchenko A.</i>	
Fullerite in organic matrix.....	424
<i>Zaginaichenko S.Yu., Schur D.V., Matysina Z.A., Mil'to O.V.</i>	
Endohedral metallofullerenes: synthesis, isolation, reactivity and possible application.....	430
<i>Bubnov V.P., Kareev I.E., Kotov A.I., Yagubskii E.B.</i>	
The properties of metal-fullerene materials.....	434
<i>Zhdanok S.A., Shpilevsky E.M., Shpilevsky M.E., Baran L.V.</i>	
FCC-nanocarbon: electron structure and properties.....	438
<i>Savchenko N.F., Guseva M.B.</i>	
Influence of oxygen containing additives to ethylene on catalytic synthesis of carbon nanofibers.....	442
<i>Volodin A.A., Tarasov B.P.</i>	

Substitutional structures stable against the formation of antiphase boundaries in graphene doped with metal. Kinetics of long-range order.....	446
<i>Radchenko T.M., Tatarenko V.A.</i>	
Fullerites under shock waves.....	450
<i>Milyavskiy V.V., Khishchenko K.V., Fortov V.E.</i>	
The production and the distribution of fullerenes and other carbon nanomaterials.....	452
<i>Markovich M., Rasnetsov L., Karnatsevich V.</i>	
Spectral and thermodynamic properties of water system with single-walled carbon nanotubes.....	454
<i>Adamenko I.I., Korolovych V.F., Korolovych A.F., Prylutskyy Yu.I., Ritter U., Scharff P.</i>	
Radiation stability and peculiarities of background paramagnetism of fullerene C ₆₀	458
<i>Volodina V.A., Kuzina S.I., Gordon D.A., Mikhaylov A.I.</i>	
[C ₆₀] – [C ₇₄] – fullerenes: enumeration of isomer substitutions in terms of apical, edge and face differentiation....	462
<i>Smolyakov V. M., Sokolov D. V., Nilov D. Yu., Grebeshkov V.V., Fedin D.M.</i>	
Mechanochemical synthesis of fullerene derivatives and their properties.....	466
<i>Arbuzov A.A., Muradyan V.E.</i>	
Superconductivity of fullerides A _n Tl _m Hg _x C ₆₀ (A=K, Rb, Cs; n=1,2; m=0.25-2), synthesized from amalgams.....	470
<i>Kulbakhinskii V.A., Bulychev B.M., Lunin R.A., Kytin V.G.</i>	
Catalyst nature influence on the carbon nanotubes properties and character of synthesis from ethanol vapor....	474
<i>Redkin A.N., Korepanov V.I.</i>	
The tribological properties of modified fullerenes in different disperses mediums.....	478
<i>Piljavsky V.S., Kovtun G.A., Polunkin E.V., Kameneva T.M., Troshin P.A.</i>	
Influence of carbon containing additives to hydrogen sorption properties of "pseudoalloys" Mg-REM-Ni.....	480
<i>Borisov D.N., Fursikov P.V., Tarasov B.P.</i>	
Chemistry of carbon nanotubes.....	484
<i>Muradyan V.E.</i>	
Effect of hydrogen impurity on the thermal expansion of single-walled carbon nanotube bundles.....	488
<i>Popov S.N., Vinnikov N.A., Gavrilko V.G., Dolbin A.V., Esel'son V.B., Manzhelii V.G., Sundqvist B.</i>	
Magnetic properties of the nanosized carbon clusters in hydrogenated amorphous silicon-carbide films.....	492
<i>Savchenko D.V., Kalabukhova E.N., Lukin S.N., Shanina B.D., Vasin A.V., Lysenko V.S., Nazarov A.N., Rusavsky A.V., Koshka Y.</i>	
The influence of carbon and hydrogen impurities on magnetic properties of nanocrystalline nickel produced by grinding in the ball mill	496
<i>Perekos A.E, Mordyuk B.N., Rud A.D., Prokopenko G.I., Schur D.V., Dubovoy A.G., Efimova T.V., Ivaschuk L.I., Lakhnik A.M., Ruzhitskaya T.V.</i>	
Electronic structure of products of polyvinylidene fluoride and toluene diisocyanate carbonization in an Al ₂ O ₃ matrix.....	498
<i>Dymarchuk V.A., Zaulychnyy Ya.V., Khyzhun O.Yu., Ogenko V.M., Dubrovina L.V., Naboka O.V., Volkov S.V.</i>	
X-ray analysis of nanoparticles with use of synchrotron radiation.....	502
<i>Yurjev G.S., Mamontov E.V.</i>	
Endo- and exofullerenes derivatives as antioxidants of organic compounds.....	506

Corona discharge as a method of visualization of the field-emission centers.....	678
<i>Eroshkin P.A., Starikov P.A., Leychenko A.S., Sheshin E.P.</i>	
The role of nanothin carbon layers in formation of nonuniform elastic twist bending of the lattice in nanoring selenium crystals and block boundaries.....	682
<i>Malkov V.B., Pushin V.G., Malkov A.V., Malkov O.V., Shulgin B.V.</i>	
Proton conductivity of carbon powder stimulated by gamma-irradiation.....	686
<i>Sandalov V.N., Ibragimova E.M., Muminov M.I.</i>	
Linear carbon nanosystems for microelectronics and medicine.....	690
<i>Novikov N.D., Alexandrov A.F., Korneeva Yu.V.</i>	

Composite materials obtained on the basis of multi-wall carbon nanotubes.....	694
<i>Kirillov A.I., Obiedkov A.M., Egorov V.A., Kaverin B.S., Domrachev G.A., Semenov N.M., Ketkov S.Yu., Lopatina T.A., Gusev S.A., Mansfeld A.D.</i>	
Application of carbon nanotube for containment of radar detection.....	698
<i>Pashayev A.M., Kasimov F.D., Javadov N.G., Skubilin M.D.</i>	
Montmorillonite nanoclays of Baylar field.....	700
<i>Khalilov A.J., Sadykhov N.M., Aliyeva U.I.</i>	
Carbon nanomaterials as gas sensors: a quantum chemical study.....	702
<i>Gapurenko O.A.</i>	
Methanol (Ethanol) to hydrogen decomposition on carbon-metal nanostructured composites.....	706
<i>Suleimanov N. M., Khantimerov S. M., Kukovitsky E.F., Scheuermann R., Herlach D., Locshin A. A., Gnezdilov O. I., Matukhin V.L.</i>	
Solution processable C ₆₀ fullerene-hydrazone dyads for optoelectronics.....	710
<i>Urnikaite S., Petrikyte I., Daskeviciene M., Malinauskas T., Gaidelis V., Maldzius R., Jankauskas V., Getautis V.</i>	
Comparative study of anodes based on carbon nanomaterials and Li metal in chemical power sources with gel- electrolyte.....	712
<i>Yarmolenko O.V., Khatmullina K.G., Tulibaeva G.Z., Shuvalova N.I., Efimov O.N.</i>	
Theoretical study of the mechanism of nitrogen fixation by fullerene C ₆₀	716
<i>Shestakov A.F.</i>	
Linear-Chain nanocarbon cold cathode.....	720
<i>Babaev V.G., Khvostov V.V., Streletskiy O.A.</i>	
Nanocomposites based on carbon nanotubes and Cu (Ni) nanoparticles.....	724
<i>Kozlov V.V., Karpacheva G.P., Korolev Yu.M.</i>	
The effect of the structure of nanocarbon carrier on catalytic properties of platinum-ruthenium alloy.....	728
<i>Ermilova M.M., Efimov M.N., Zemtsov L.M., Karpacheva G.P., Kulakova I.I., Orekhova N.V., Tereshchenko G.F.</i>	
Platinum-carbon nanocomposites in membrane catalysis.....	732
<i>Ermilova M.M., Efimov M.N., Zemtsov L.M., Karpacheva G.P., Orekhova N.V., Tereshchenko G.F.</i>	
Peculiarities of synthesis of carbon nanofibers on inorganic matrix and adhesion properties of composite CNF-containing supports.....	736
<i>Kovalenko G.A., Rudina N.A., Perminova L.V.</i>	
Studies of oxidized multiwall carbon nanotubes in the temperature range from RT to 640° C by the FTIR and electron spectroscopy methods.....	740
<i>Lesiak B., Zemek J., Jiricek P., Stobinski L., Biniak S., Trykowski G.</i>	
Application of carbon-bearing nanostructures (C ₆₀ – C ₇₀ fullerene and fullerene-bearing hydrocarbon black) while synthesis of non-fluid oil.....	742
<i>Javadov N.F., Schur D.V., Agayev A.M., Zaginaychenko S.Yu., Efendiyev A.G., Jabarova Z.A., Javadov E.N.</i>	
Hybrid 3D-nano/microstructures obtaining on the basis of pretreated carbon fibers.....	746
<i>Mileeva Zh.A., Bogolepov V.A., Schur D.V., Zaginaichenko S.Yu., Begenev V.A., Shabalin I.L., Ross D.K.</i>	
Neutron- diffraction studies o.f mechanically activated fullerenes.....	750
<i>Glazkov V.P., Agafonov S.S., Kokin I.F., Somenkov V.A.</i>	
Study of thermal stability of Me-C nanocomposites.....	756
<i>Golovko E.I., Zolotareno Al.D., Rogozinskaja A.A., Pomytkin A.P., Schur D.V., Zaginaichenko S.Yu., Trifonova T.A. Matysina Z.A.</i>	
Effect of organo-metallic compounds of manganese on structure and composition of electrodeposited fullerene-containing coatings.....	760
<i>Khotynenko N.G., Rogozinskaya A.A., Koval' A.Yu., Schur D.V., Zaginaichenko S.Yu., Kamenetskaya E.A., Pishuk V.K.</i>	
The procedure of thin fullerene films deposition on zirconium substrates.....	764
<i>Khotynenko N.G., Zaginaichenko S.Yu., Tret'yakova L.V., Pomytkin A.P., Vlasenko A.Yu., Adeev V.M., Starchik N.I., Schur D.V., Matysina N.V.</i>	

Study of technology for fullerene metal-containing- coatings electro-depositing.....	768
<i>Khotynenko N.G., Koval A.Yu., Rogozinskaya A.A., Vlasenko A.Yu., Mil'to O.V., Kamenetskaya E.A., Voronaya T.V., Schur D.V., Zaginaichenko S.Yu.</i>	
Properties of iron and nickel metal-carbon nanocomposites synthesized by arc discharge in liquid.....	772
<i>Zolotareno An.D., Zolotareno Al.D., Perekos A.E., Dubovoy A.G., Kotko A.V., Efimova T.V., Zalutskiy V.P., Rugitskaya T.V., Zaginaichenko S.Yu.</i>	
Metalcarbon nanocomposites synthesized by mechanical mixtures evaporation in electric arc.....	778
<i>Zolotareno Al.D., Zolotareno An.D., Anikina N.S., Krivushchenko O.Ya., Golovko E.I., Zaginaichenko S.Yu.</i>	
Multiwall carbon nanotubes (CNT) deagglomeration and nanocomposite polymer/CNT production.....	782
<i>Sementsov Yu.I., Aleksyeyeva T.A., Pyatkovsky M.L., Prihod'ko G.P., Gavriluk N.A., Kartel N.T., Grabovskiy Yu.Ye., Gorchev V. F., Chunikhin A. Yu.</i>	
Advancement of technology of carbon nanotube synthesis on zirconium substrate.....	786
<i>Meleshevich K.A., Bogolepov V.A., Adeev V.M., Kondratenko I.G., Golovchenko T.N., Pishuk V.K., Starchik N.I., Begenev V.A., Kamenetckaya E.A., Schur D.V.</i>	
Carbon nanomaterials in light sources.....	790
<i>Besov A.V., Bogolepov V.A., Schur D.V., Pomytkin A.P., Teslenko L.O., Shvachko N.A., Shaposhnikova T.I., Doroshenko S.V.</i>	
About physical nature of ionization potentials of benzene mono-derivatives and C ₆₀ fullerene solubility in these compounds.....	796
<i>Anikina N.S., Schur D.V., Zaginaichenko S.Yu., Golovchenko T.N., Matysina Z.A., Krivushchenko O.Ya., Teslenko L.O.</i>	
Peculiarities of hydrofullerite solubility.....	800
<i>Anikina N.S., Savenko A.F., Krivushchenko O.Ya., Zaginaichenko S.Yu., Schur D.V.</i>	
Influence of magnetic field on structural state, phase composition and dispersion of Fe powders, produced by electrospark method.....	804
<i>Dubovoy A.G., Perekos A.E., Schur D.V., Efimova T.V., Zalutskiy V.P., Shumeiko I.P., Zaginaichenko S.Yu., Pomytkin A.P.</i>	
Magnetic properties of composites ferromagnetic metal-carbon.....	808
<i>Molodkin V.B., Kulish N.P., Nadutov V.M., Repetsky S.P., Len E.G., Gorobets O.Yu., Perekos A.E., Schur D.V., Zaginaichenko S.Yu., Zolotareno Al.D., Zolotareno An.D.</i>	
Electrochemical intercalation of hydrogen inside activated carbon.....	812
<i>Rychagov A.Yu., Sosenkin V.E., Volifkovich Yu.M.</i>	
Power electrochemical supercapacitor on the base of carbon nanotubes.....	816
<i>Volifkovich Yu.M., Rychagov A.Yu., Sosenkin V.E., Krestinin A.V.</i>	
Opportunities of research of carbon materials and nanomaterials by positron annihilation spectroscopy.....	822
<i>Timoshenkov S.P., Prokopiev E.P., Grafutin V.I., Funtikov Yu.V.</i>	
TOPIC 3 MATERIALS FOR FUEL CELLS	827
Economically usage of hydrogen in solid oxide fuel cells.....	828
<i>Fettah S., Ibrahimoglu B., Aksongur S.</i>	
Current collector designs for direct methanol solid oxide fuel cells.....	830
<i>Aksongur S., İbrahimođlu B., Kuliyeu S.A., Kozlu M.D.</i>	
Direct methanol solid oxide fuel cell.....	832

Facility for automated testing of catalysts for conversion of hydrocarbons to hydrogen.....	1010
<i>Matveichik E.A., Chernukho A.P., Migoun A.N.</i>	
Fuel cells membrane-electrode assemblies fabrication methods.....	1014
<i>Terukova E.E., Moshnikov V.A.</i>	
Features of the hydrogen generation technology and the nanostructured hydroxide synthesis under high temperatures and pressures.....	1018
<i>Mazalov Yu.A., Bersh A.V., Zakharov A.A., Sudnik L.V., Vityaz P.A., Ilyushchanka A.F., Smorygo O.L.</i>	
Numerical modelling of hydrogen desorption from cylindrical surface.....	1022
<i>Rodchenkova N.I., Zaika Yu.V.</i>	
Hydrogen influence on creation of metallic nanoparticles.....	1026
<i>Aftandilyants Y.G., Lopatko K.G., Zaulichnyi Y.V.</i>	
Parametric identification of hydrogen permeability model by delay times and conjugate equations.....	1030
<i>Zaika Yu.V., Bormatova E.P.</i>	
Features of combustion and fire-extinguishing of metals and metal hydrides with powder fire-extinguishing compounds.....	1034
<i>Gabrielyan S.G., Chibisov A.L., Smirnova T.M.</i>	
Fire protection of silicon production.....	1040
<i>Gabrielyan S.G.</i>	
Prevention of explosions and extinguishing of ignitions at hydrogen power installations.....	1044
<i>Chibisov A.L., Smirnova T.M., Soina E.A., Fedotkin D.V., Kotsar' M.L.</i>	
Fire hazard assessment of dispersed metals and their hydrides.....	1050
<i>Chibisov A.L., Smirnova T.M., Soina E.A.</i>	
Borohydride for hydrogen energy application.....	1054
<i>Minkina V.G., Shabunya S.I., Kalinin V.I., Martynenko V.V.</i>	
Automated installation producing pure hydrogen by borohydrides catalytic hydrolysis.....	1058
<i>Kalinin V.I., Minkina V.G., Shabunya S.I., Martynenko V.V.</i>	
On the possibility to use some layered crystals for hydrogen accumulation.....	1062
<i>Zhirko Yu.I., Kovalyuk Z.D., Zaslونkin A.V.</i>	
Ecologically clean hydrogen production from coals.....	1064
<i>Stepanov A.V., Polunkin E.V., Matushevich G.G.</i>	
Heat pipes with composite fiber-powder structures for heat-transmitting devices of hydrogen power.....	1068
<i>Kostornov A.G., Shapoval A.A., Moroz A.L., Shapoval I.V., Gavrilin A.S.</i>	
Properties of the heavy water and deuterium impurity-gel samples in superfluid helium.....	1072
<i>Mezhov-Deglin L.P., Efimov V.B., Kolmakov G.V., Levchenko A.A., Likhov A.V., Nesvizhevsky V.V.</i>	
Neutron studies of impurity gels in superfluid helium He-II.....	1076
<i>Levchenko A.A., Mezhov-Deglin L.P., Efimov V.B., Kolmakov G.V., Likhov A.V., Nesvizhevsky V.V.</i>	
High-hydrogen materials for nuclear energetics applications.....	1080
<i>Skorokhod V.V., Morozov I.A., Morozova R.A., Medvedev V.I., Korotenko M.N., Voznyuk P.A., Shevel V.N., Kondrashov A.V., Rogozinska A.A., Dubovik T.V.</i>	
Natural energy-elemental processes in nano (DNA)-micro- macro-mega (Galaxy) level systems.....	1084
<i>Bobukh L.V., Morgun M.P., Bobukh T.A., Sivolap T.N., Kovalenko N.G.</i>	
Equilibrium pressures of titanium over titanium tritide.....	1088
<i>Golubeva V.N., Sten'gach A.V.</i>	
«RUSNANO»: nanoindustry is the way to innovation economics.....	1092
<i>Kalyuzhnyi S.V., Goldt I.V.</i>	

Solar hydrogen production from water splitting: mass/energy balances and possible improvements.....	1094
<i>Udovyk O.O., Pasichniy V.V.</i>	
Electrolysis model development for metal/electrolyte interface: testing with micro-respiration sensors.....	1096
<i>Vanags M.A., Kleperis J.J., Bajars G.E.</i>	
TOPIC 5 CARBON NANOMATERIALS IN CLEAN ENERGY HYDROGEN SYSTEMS	1099
Formation of nanopores on the van der Waals surfaces of the layered GaSe crystals for accumulation and storage of hydrogen.....	1100
<i>Kovalyuk Z.D., Bakhtinov A.P., Vodop'yanov V.N., Zaslونkin A.V., Netyaga V.V.</i>	
Thermostability on air of some powdery carbides.....	1104
<i>Kudin V.G., Sudavtsova V.S., Shevchenko M.A., Kobylinskaya N.G.</i>	
Opening of secret of Etruscan decorations from gold.....	1106
<i>Chernienko V.V., Zabolotnyi O.V., Tigarev V.M., Pavlyshko Je.G.</i>	
AUTHOR'S INDEX.....	1111
